SENATE ADOPTS DRASTIC LAWS AGAINST BLACKLIST

ARMY AND NAVY MAY BE USED TO ENFORCE

Diplomatic Circles Exercised Over Legislation Which Declares Trade War on Europe

(By Associated Press.)

WASHINGTON, Sept. 5.—An amendment authorizing the president, during any war wherein the United States is not engaged, to withhold clearances from vessels discriminating against American shippers; to withhold all privileges from ships of such nations withholding privileges accorded other nations from American ships, and to use the army and navy, if necessary, to prevent departure of offending vessels from United States ports, was adopted by the senate today.

An amendment of Senator Phelan, of California, was adopted, authorizing the president by proclamation to deny the use of the mails, express, telegraph, wireless and cable facilities to citizens of nations not accorded Americans all facilities of commerce, "including unhampered traffic in the mails."

OPTIMISTS HOLD ON TO THE GYPSY

News of the strike on the Gypsy Queen caused a distinct sensation yesterday when brokers were busy trying to pick up blocks from local holders. No disposition to sell was manifest in spite of the fact that 17 was bid. A specimen of the ore was on exhibition in Fred Brown's window. This held public attention all afternoon and during the evening. The sample shows between three and four inches of high grade in a broken glassy trachyte. The values are carried in a six foot ledge that averages between \$12 and \$15 clear across, while the high grade streak runs \$20 in gold.

This morning the stock opened at 18 bid in New York, but the price was not held after the opening in San Francisco, where bearish influences dragged down the Queen to 12 bid.

INTERED CIVILIANS MAY BE RELEASED

(By Associated Press.)

BERLIN, Sept. 5.—Thousands of civilians interned by Germany and England will probably be released and the difficult problem of concentration camps will be solved altogether if the plan considered is adopted. The idea is to exchange all civilians on parole, not to serve during the war.

WEST END BULLION MAKES A RECORD

The largest single bullion shipment from the West End mill went out Sunday morning as the result of the run for the previous half month or the latter part of August. The shipment comprised 45 bars weighing 74,777 ounces valued at \$57,821.60. The increase may be gauged better by comparing the volume and value with the previous two shipments as follows: August 5, 67,388 ounces, valued at \$53,910, and August 20, 63,750 ounces, valued at \$51,000.

in the mails." This, he declare, was aimed particularly at British interference with American mails.

Drastic amendments to the revenue bill striking at the allied blacklist and British interference with American mails, as adopted by the Senate, created consternation among allied diplomatic representatives. In allied quarters it was declared the enactment of the amendments into law constitutes not less than a non-intercourse act, preliminary to a commercial warfare, with possibilities of far reaching consequences.

The Chamberlain amendment prohibiting the admission of halibut and salmon into the United States except when in bond from American ports was adopted. This was directed against the Canadian fisheries of the Pacific to urge development of American fisheries there.

Hughes in Land of Enemy Takes Up the Adamson Bill

(By Associated Press.)

NASHVILLE, Tenn., Sept. 5.—In territory which no Republican presidential nominee ever has visited before, Charles E. Hughes last night faced a tumultuous audience in the Auditorium here. With cheers for Woodrow Wilson ringing again and again in his ears, heckled by questioners and halted often by Democratic sympathizers, the nominee criticized the administration for its policies, argued for a protective tariff and, in a reference which the audience took to apply to the enactment of the Adamson bill, asserted that he stood firmly for the arbitration of all industrial disputes.

"I believe there is no grievance with respect to labor," Mr. Hughes said, "that cannot be settled by a fair, candid explanation of the facts."

HAND TO HAND FIGHTING IN RAIN OF SHELL GERMANS VANQUISHED

(By Associated Press.)

LONDON, Sept. 5.—British troops captured the Germans defenses on a 3000 yard front for an average depth of 800 yards, including Guillemont village. In the fighting north of the Somme river the whole of Ginchy was captured, but the British were compelled to give ground, retaining part of the village despite heavy counter attacks. Over 1000 Germans were captured. The prisoners reached the collecting stations alive through successive curtains of fire. Nearly all the Germans in the Guillemont sector were killed. The British carried their light machine guns forward and with these faced the German counter attack under cover of their artillery.

At Moquet farm the Australians had

"We have, in the past, had to deal frequently with the opposition of employers to the principle of arbitration. Sometimes they have refused to arbitrate disputes. Public opinion has been against them. I stand firmly for the principle of arbitration of industrial disputes."

"I believe that anything that is right in this country can be settled right. What is our Republican government? What are our free institutions? We have come down the long course of history with the people fighting slowly, slowly—now with defeat and now with victory—for a recognition of the reign of reason instead of the reign of tyranny and force."

"Now, then, I stand for two things:

"First: For the principle of fair, impartial, thorough, candid arbitration, and, second, for legislation on facts according to necessities of the case. And I am opposed to being dictated to either in the executive department or Congress by any power on earth before the facts are known. We have a great country and a great future. But it can only be preserved in one way: that was the way of all honest, fair investigation and candid treatment. Show me the way that is right and I will take it; but I won't take any way that I do not know anything about."

The audience, which had interrupted Mr. Hughes repeatedly in the earlier portion of his speech to cheer for Wilson, heard the declaration in silence and at its conclusion applauded him.

The night address, the second of the day, was delivered before a crowded house.

RUMANIA WAS READY TO MOVE

(By Associated Press.)

to yield part of the ground gained, with the Germans at last accounts in possession of the farm itself.

One of the most formidable German counter attacks struck southward, trying to catch in the flank the British who had entered Ginchy. With Guillemont lost, Ginchy became all the more vital to the Germans. They brought up reinforcements. So did the British. Amid these ruins, with both sides hesitant to fire for fear of hitting their own men, machine guns and rifles rattled where they could be used and bombers worked from the cover of any remaining trenches, shell craters and piles of mashed bricks and mortar.

PETROGRAD, Sept. 5.—In the direction of Vladimir-Volynski, on the upper Sereth, in Volhynia, the Russians in battles lasting from Thursday to Saturday captured 115 Teuton officers, 4500 men, 6 cannon and 35 machine guns and 4 mine throwers. Russians and Bulgarians are fighting in Rumania. This is the first clash between them since the Russians sabred a Bulgarian cavalry cut post.

over the scene saw it as a mad football scrimmage of struggling figures.

The British are still holding fast to the sunken road beyond Guillemont and in a pelting rain this morning fighting continues around Falfemont farm and the wedge of wood, where a section of the Prussian guard still holds out. Without cessation German guns have kept up a terrific volume of shell fire at Guillemont.

The army heads are gratified because south of Ginchy to the Somme, despite immense German preparations the attack has been the most complete attack of any since the offensive began except that of July 14, when the British broke the German

Offensive Movement Gaining Force on the Somme With Immense Gains

(By Associated Press.)

LONDON, Sept. 5.—The battle of the Somme has now reached a high pitch of violence after the concentration of the picked German troops. The French and British are striking blow after blow in what appears a supreme effort to force a way through the German line. Further substantial gains, two points north of the sector, 12½ miles over which the French advanced yesterday, are announced.

Fighting on the Somme since Sept. 3 resulted today in the British capturing the whole remaining German second line of defenses on the battle front from Moquet farm to a point where the British line joins the French.

(By Associated Press.)

BERLIN, Sept. 5.—The battle on the great Somme front continues. South of the river the Germans are defending themselves on a front 18 miles wide which the entente allies are storming. Loss of the village of Chilly is conceded.

5000 GERMANS TAKEN AT BATTLE OF PICARDY

(By Associated Press.)

PARIS, Sept. 5.—"A bloody battle is going on on both banks of the Somme," says the official communication issued last night. "The French have made fresh progress east of the village of Forest, north of the river, and on the south have successfully attacked objective along a front of 20 kilometers (12½ miles) from Barleux to Chaulnes."

The village of Soyecourt was brilliantly carried by assault, as well as part of Vermandovillers. More than 5000 prisoners have been taken north and south of the Somme in the last two days.

"Progress also was made on the right bank of the Meuse (Verdun sector) in the Fleury region."

JAP ULTIMATUM SENT TO CHINA

(By Associated Press.)

WASHINGTON, Sept. 5.—Secret demands in addition to those published in dispatches from Peking are being pressed on China by Japan as a result of the recent clash of Chinese and Japanese troops at Cheng Chiatum. It became known here today that the situation is much more serious than has been indicated, confidential reports saying the unpublished demands threaten the authority of China over the whole of Inner Mongolia.

Officials here view the development with real anxiety, fearing another China-Japanese crisis, which might involve the interests of the United States.

Another clash between Chinese and Japanese troops is officially reported from Chaoyangpo, Mongolia, and has led to the dispatch of heavy Japanese reinforcements. It is claimed that the Chinese attacked the Japanese while the Japanese were advancing to mediate between the Chinese and Mongolians.

G. S. BOSCH returned Saturday morning from Bakersfield.

(By Associated Press.)

PARIS, Sept. 5.—Vigorous counter attacks made by the Germans north of the Somme in an effort to regain ground taken by the recent new French drive were repulsed with heavy losses.

The French capture of Soyecourt and Chilly make a total of 29 villages taken during the start of the offensive on the Somme front. Positions wrested from the Germans yesterday were powerfully organized. German assaults north of the Somme were delivered between Comblès and Forest. South of the river unsuccessful blows were struck by the Germans east of Belloy.

(By Associated Press.)

LONDON, Sept. 5.—British troops last night in the region of the Somme increased their gains in the neighborhood of Guillemont. They pushed forward 1500 yards east of Guillemont and obtained a hold on Louze wood. Further south a strong system of German defenses on a front 3000 yards around Falfemont was captured.
